

Field Service

Applications and Industries in North America

Kalenborn Abresist specializes in on-site field service throughout North America. Our customer service team provides excellent support to all our customers. Contact us today to allow Kalenborn Abresist to be "on call" for your next project.

- Abrasion Resistant Linings
- Corrosion Control Coatings
- Steel Fabrication Services
- Pipe Installation

Linings are highly resistant to abrasion from bulk materials such as:

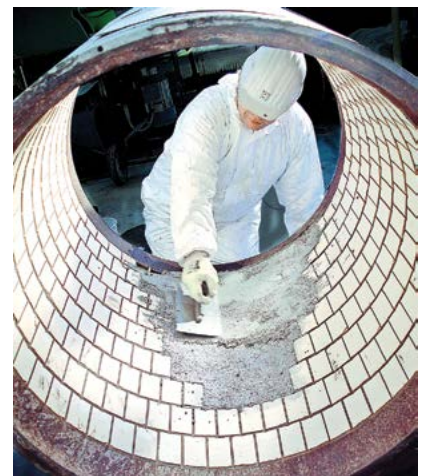

- Coal
- Coke
- Feed
- Fertilizer
- Fly Ash
- Glass
- Grain
- Limestone
- Ore
- Potash
- Bottom Ash
- Slag
- Silica Sand
- Other Highly Abrasive Materials
- Sewage Grit

Kalenborn Abresist is ISO-9001:2008 Certified plus PICS, ISNetwork and BROWZ safety compliant.

Abrasion Resistant Linings

Kalenborn Abresist provides wear resistant linings with excellent abrasion and impact resistance — specifically constructed for use wherever wear and abrasion are a problem. Our wear and abrasion resistant linings reduce downtime and maintenance and are marketed throughout the United States, Canada and Mexico.

Corrosion Control Coatings

■ Corrosion Control (100% Solids Epoxy Coatings)

*Moisture & Surface Tolerant, Fast Cure Time – Even Under Water,
UV Protection, Promotes Greater Uptime, 100% Solid "0" VOC,
All Colors Available*

■ Pipe Lining Protection (Exterior)

■ Structural Steel Protection

■ Tank Linings (Interior)

■ Air Receiver Tanks

■ Concrete Restoration (Secondary Containment)

■ Waste Water Treatment

- Floor
- Drain

■ Cooling Towers

- Sump
- Pillars

Steel Fabrication Services

■ Wear Resistant Piping

■ Steel Fabrication (Fabricated / Lined & Installed)

■ Auxially Support Fabrication

- Walkways
- Stairs / Ladders
(Access & Travel-Way)
-   Approved Systems
- Mezzanines

Industries

- Building Products – Shingles, Fiberglass, Cement Board, Siding, and more
- Cement
- Ceramics
- Chemical & Chemical Processing
- Coal Fired Power Plants
- Concrete Restoration
- Copper, Aluminum Smelting
- Feed, Grain & Milling
- Fertilizer & Agricultural Chemicals
- Food (FDA) Processing
- Foundries
- Glass
- Iron & Steel Industry
- Lumber, Wood Products
- Marine/Offshore
- Mining – Coal, Copper, Gold, Zinc and more
- Paper
- Petroleum & Oil
- Plastics
- Pollution Control – Air & Water
- Stone Products
- Sugar & Sugar Crops
- Wastewater & Sewage Disposal

Applications

- Above and Below Water Repair
- Abrasion Resistant Pipe/Elbows/Linings
- Air Receiver Tanks
- Air Separators
- Ash Hopper
- Bark Transferer (Elbows/Cyclones)
- Burner Nozzles
- Classifiers - Cones
- Combisorter
- Concrete Pillar Rebuild & Restoration
- Concrete Restoration
- Cooling Towers
- Cyclones
- Dust Collection
- Exhauster
- Fans
- Fan Linings
- Fiberglass Repair
- Filter Slurry Tanks
- Flume Lining
- Fuel Delivery
- Holding Tanks
- Launderers
- Pipe/Gas & Slurry Pipeline Repairs
- Pulp Tanks
- Pulverizers
- Pump Repair
- Raw Mill Linings
- Scrubbing
- Secondary Containment
- Storage Tanks
- Structural Steel
- Surge Bins
- Tank Repair
- Thickener Tanks
- Transfer Chute
- Transfer Point/Hoppers
